

Dear FCC,

I'm concerned about current FM translators being replaced by LPFM stations that do not include lifesaving stations like K-LOVE. K-LOVE gives hope to people every single day and many thousands are positively affected by K-LOVE daily. For me, it is a reliable source of encouragement and kindness in our increasingly angry and chaotic society. Please do not take the chance that K-LOVE or similar stations will be lost to LPFM stations.

Thank you for your time.

Sincerely,
Kelly Kapp
